

**VILLAGE OF THERESA**  
**Notification of Street Light Disconnection**

*Due to several changes adopted by the State Legislators including a major reduction in State financial aid, the Village of Theresa Board Members found balancing the 2012 budget to be quite a challenge this year and were definitely faced with some extremely difficult decisions. At the current time, the Village is paying \$30,000 per year for the cost to power the street lights. Therefore, after numerous lengthy discussions, several tours of the Village and much consideration, the Village Board made the decision to disconnect various street lights throughout the Village. Disconnecting approximately forty (40) street lights will save the Village an estimated \$5,000. Streetlights that are scheduled to be disconnected were carefully and methodically selected by the members of the Public Works Committee; the light poles are/were marked with a blue "X". The disconnection of the street lights should take place sometime between December 2011 and February of 2012. Please contact the Director of Public Works Dennis Guelig or a Public Works Committee member if you have questions or concerns regarding this information. Dennis can be reached by calling 920/488-4003. Members of the Public Works Committee are Jody Steger, Dick Palecek and Dave Brandenburg. Or, feel free to express your concerns by attending a Regular Monthly Village Board Meeting, which are held at 7:00pm on the 1st Monday of every month.*
